## Why INDIA?

India is the world's leading producer and exporter of agri products, preferred in international markets due to its rich agricultural background.

This natural advantage ensures the consistent production of products with high nutritional contents, vibrant colours, strong flavours, purity and superior quality, meeting the varied requirements of global consumers.

# 8th

India is the 8th largest exporter of agricultural products in the world .

The country's diverse and fertile landscapes, combined with its tropical and subtropical climate, provides the perfect environment for agricultural cultivation.

The high demand for Indian Turmeric and Indian Garlic reflects its reputation making it the best preferred choice.

## From harvest to export

At Augst Lines, we ensure that our post-harvest process for our products include rigorous steps to deliver only the finest quality to our clients. We begin with thorough manual or machine pre-cleaning to remove impurities, followed by sun-drying to preserve natural potency. The products are then polished to enhance its appearance and sorted meticulously for quality grading.

Advanced processes like moisture maintenance, size sorting, de-stoning, grinding, magnetic separation, and sifting further refine, ensuring purity and uniformity. Finally, it's carefully packed under hygienic conditions, ready to deliver giving high standards of global markets.
